What will THE FUTURE *hold for them?*

YOU must have asked yourself this question many times as you've watched your children at work or play. The answer, to a great extent, will depend upon their character and native ability. But to an equally large extent it will hinge upon their *training* to cope with life's problems.

It is here that you can be most helpful – by making *sure* that they will receive a complete education, and be given a proper start in their chosen careers.

Trust Funds, planned now, can provide regular income for education and similar expenses. Let us explain how other fathers have used our services to provide security and opportunity for their children.
